

ClassNK-PEERLESS ver. 2021.1 Release News

New!

Insulated Pipe Creation

It is enabled to create insulated pipes around the pipe. Also now you can create insulated pipes and general pipes at once.

Improved

Angle Shaped Steel Creation

New exclusive feature for angle shaped steel is available. It enables to create angle shaped steel by picking 2 end points of the target. The system automatically recognizes the shape from the point cloud between 2 end points.
